

Accelerating Green Growth in Azerbaijan through Public-Private Partnership

by

PhD Vugar Bayramov,

Chair of the Board,

Center for Economic and Social Development
(CESD)

Green Growth ?

- Policy focus that emphasizes environmentally sustainable economic progress to foster low-carbon, socially inclusive development
- for the rapidly growing Asia and Pacific region
- UN ESCAP - Economic and Social Commission for Asia and the Pacific

Green Growth & Public Private Partnership

- Global Green Growth Forum – global public-private partnership for green growth, launched by Denmark&Korea&Mexico in 2011

#1. Food waste

#2. Industrial energy efficiency in motor systems

#3. Urban water leakage

#4. Grid integration

#5. Industrial wastewater reuse

#6. Advanced bio-based fuels and chemicals

Public Private Partnership involvement

- Awareness raising and behavioral shift
- Product development
- Policy, regulation, and planning
- Coordination
- Capital mobilization

Green Growth in Azerbaijan

- Fossil fuel. Finite
- Fossil fuel subsidies
- Energy
- Transport
- Agriculture

Azerbaijan.

Perspectives & Obstacles

- Soviet heritage. Transformation of institutions
- Market based economy
- Strong Civil Society and NGO involvement
- Incentives for business
- IDEA - International Dialogue for Environmental Action

Green Growth

- THANK YOU!
